I am writing this evening in protest to the NAB's petition 04-160. As a subscriber of XM Satellite Radio, I feel my programming should not be limited due to the fact that the NAB feels threatened by satellite radio. XM's weather and traffic channels have made recent road trips easier and less stressful thanks to the instant traffic reports. My commutes back and forth from college have also been a little more pleasant thanks to XM radio. Local radio stations are full of commercials which make driving stressful and frustrating. Please reject the NAB's petition 04-160. This country was built on capitalism and the freedom to provide consumers with a quality service that is useful; please don't change that. Thank you.
